Ophthalmic and Physiological Optics

INDEX TO VOLUME 12

SUBJECT INDEX

abstracts
  Contrasts in Vision 1991, 81
  Applied Vision Association, 1992, 497
accommodation
  autonomic nervous system, psychosomatic symptoms, 103
  binocular vision, ocular/visual models, 307
  binocular vision, ocular/visual models, 319
  myopia, binocular vision, 433
  temporal sensitivity, video display terminals, 327
  peripheral vision, temporal sensitivity, 361
accommodation (microfluctuations)
  visual performance, arterial pulse, 252
age
  hyperacuity, visual performance, 29
amblyopia
  letter charts, binocular vision, 425
Applied Vision Association 1992
  abstracts, 497
arterial pulse
  accommodation (microfluctuations), visual performance, 252
artificial tears
  cornea, toxic reactions, 457
astigmatism
  optical power, focimetry, 52
attention
  electrophysiology, visual evoked potential, 437
autonomic nervous system
  accommodation, psychosomatic symptoms, 103
autorefractors
  clinical survey, pseudophakia, 405
axial length
  ultrasound, 491
  schematic eye, visual optics, 443
  myopia, emmetropization, 448
behavioural responses
  motion perception, cerebral cortex, 209
binocular summation
  visual fields, contrast detection, 46
binocular vision
  control, ocular/visual model, 106
  ocular/visual models, accommodation, 307
  visual acuity, fixation disparity, 299
  orientation, cerebral cortex, 269
  visual fields, driving vision, 291
  ocular/visual models, accommodation, 319
  stereopsis, chromatic information, 168
  ocular/visual models, vergence response, 420
  amblyopia, letter charts, 425
  myopia, accommodation, 433
  visual performance, fixation disparity, 411
Brian Hewson Crawford Obituary, 116
cerebral cortex
  orientation, binocular vision, 269
  motion perception, behavioural responses, 209
children's vision
  orientation, contrast sensitivity, 215
  intra ocular pressure, tonometry, 287
  contrast sensitivity, preferential looking, 244, 249
  reading vision, visual performance, 381
  photorefraction, visual optics, 147
  reading vision, visual performance, 386
chromatic information
  motion perception, luminance contrast, 201
  visual performance, reading vision, 257
  binocular vision, stereopsis, 168
  colour constancy, colour vision, 220
clinical decisions
  ocular pathology, statistics, 350
clinical survey
  glaucoma, screening, 3
  letter charts, contrast sensitivity, 275
  glaucoma, screening, 400
  ocular pathology, screening, 395
  autorefractors, pseudophakia, 405
clinical tests
  colour vision, colour vision defects, 38
colour constancy
  colour vision, visual processing, 157
  colour vision, contrast sensitivity, 175
  colour vision, chromatic information, 220
colour vision
  colour vision defects, clinical tests, 38
  visual evoked potential, spatial vision, 225
  colour constancy, visual processing, 157
  pupil response, motion perception, 137
  colour constancy, contrast sensitivity, 175
  colour constancy, chromatic information, 220
colour vision defects
  colour vision, clinical tests, 38
  hue discrimination, luminance masking, 133
computer analysis
  glaucoma, optic disc, 69
conduction velocity
  myelination, optic nerve, 241
contact lenses
  visual performance, spherical aberration, 24
  radial keratotomy, optical matrices, 376
contrast
  hyperacuity, motion perception, 33
contrast detection
  visual fields, binocular summation, 46
contrast sensitivity
  children's vision, orientation, 215
  children's vision, preferential looking, 244, 249
  temporal sensitivity, rod/cone function, 183
  colour vision, colour constancy, 175
  letter charts, clinical survey, 275
  spatial vision, spatial tuning, 233
Contrasts in Vision 1991 abstracts, 81
control
  binocular vision, ocular/visual model, 106
cornea
  artificial tears, toxic reactions, 457
